

UIC / UNIFE
Procurement & environment
network meeting
26 April 2005

Initial Statement

Uta Maria Pfeiffer
Senior Expert Design for Environment
Siemens Transportation Systems

Implementation of the UIC leaflet at Siemens Transportation Systems

- Analyse all requirements
- Integration of requirements in our guideline „design for environment“
- Integration in our business processes
 - ❖ PROMEHS – Process Management for Environment, Health & Safety
 - ❖ Procurement - processes
 - ❖ Engineering – processes
 - ❖ Project management processes
 - ❖ Quality gates

The benefit of the UIC leaflet for Siemens Transportation Systems

- Knowledge of customer requirements
- Harmonised customer requirements
- Overview of environmental aspects of our products

Challenges of applying the UIC leaflet

- Step 2 occurs for step 1
- No time to implement new requirements
- Discussion about the costs !

Let's work **together**
on the issues to protect
our environment and health !

Thank you !
